Two-year Master's Degree Programme in Telemedicine and eHealth

The University of Tromsø offers a new two-year Master’s Degree Programme in Telemedicine and eHealth, starting autumn semester 2005. The programme has two fields of study: “Technology” which focuses on the construction of telemedicine and eHealth systems (The Faculty of Science) “Health” which focuses on the implementation and use of such systems in complex health organisations (The Faculty of Medicine). In both of these two fields, technology has a central role. Application deadline: the 15th of April.

The programme has been developed and will be offered in close cooperation with Norwegian Centre for Telemedicine.

Completion of the study programme qualifies for the degree Master of Science in Telemedicine and eHealth.

Both Norwegian and international students can apply for the programme. The language of instruction is English.

You can find more information about the curriculum and how to apply, on The University of Tromsø’s web sites:
