

ISfTeH Webinars 2017

**Organized by ISfTeH Working Groups
- Students, TeleNursing and Social Media –**

Date: April 24th, 2017 - 03:00 PM (GMT)

Title: Impact of Telemedicine on Infectious Diseases and Bacterial Resistance

Invited Speaker: Dr. Rodrigo Pires dos Santos, MD, PhD

Speaker Biography: Infectious Diseases Physician, Coordinator of the Infection Control Committee of the Hospital de Clínicas de Porto Alegre and of the Instituto de Cardiologia RS - Brazil. Founder and Director of Qualis Co. (Brazil).

Report: The outstanding webconferencing session on TeleInfectology - composed by a live presentation made by Dr. Rodrigo Santos and complemented by a round of discussions - attracted the attention of 22 ISfTeH members, including students, medical doctors and nurses, who represented 10 countries.

The proposed theme means one of the major challenges in clinical practice. Opening doors to innovation and to new approaches concerning the therapy of infectious diseases and about the management of bacterial resistance is

expected to match the needs of almost all health care professionals. In this scenario, Telemedicine plays a major role towards an effective solution, which was clearly presented by Dr. Rodrigo Santos to the interested audience.

Those, who for some reason couldn't attend this outstanding webinar still have a chance of accessing the recorded session (slide show + audio), available at:
https://www.anymeeting.com/WebConference/RecordingDefault.aspx?c_psrid=E955DB8584483A

We, from the ISfTeH Working Groups are looking forward to meeting all of you virtually again soon.

Best regards
